

2017 International Conference on Bioinformatics Research and Applications - ICBRA 2017

Barcelona, Spain, December 8-10, 2017

❖ Conference Introduction

2017 International Conference on Bioinformatics Research and Applications (ICBRA 2017) (<http://www.icbra.org/>) will be held in Barcelona, Spain during December 8-10, 2017. It will be co-sponsored by HKCBEES and BBS. The aim and objective of the ICBRA 2017 is to provide a platform for researchers, engineers, academicians as well as industrial professionals from all over the world to present their research results and development activities in Bioinformatics Research and Applications.

❖ Good News

1. Prof. Graham Ball from Nottingham Trent University, UK, Prof. Sri Krishnan from Ryerson University, Canada, Prof. Ralf Hofestädt from Bielefeld University, Germany, and Prof. François Langevin from Université de Technologie de Compiègne, France will join as Speakers.
2. Accepted and registered papers can be published in **International Conference Proceedings Series by ACM**, which will be archived in the **ACM Digital Library**, and indexed by **Ei Compindex** and submitted to be reviewed by Scopus and Thomson Reuters Conference Proceedings Citation Index (ISI Web of Science), or **International Journal of Bioscience, Biochemistry and Bioinformatics (IJBBB, ISSN: 2010-3638)**.
3. The selected best papers of ICBRA 2017 (after adding at least 50% new material) can be recommended to be published in **Information (ISSN 2078-2489)** as a special issue, which can be indexed by **Scopus (Elsevier)**, **EI Compindex**, Emerging Sources Citation Index (ESCI-Web of Science), etc.
4. One Day Tour will be organized on December 10, 2017

❖ Benefits of the Conference

1. Keep up-to-date on the latest advances in the field.
2. Present your research within a unique forum.
3. Collaborate with experts from all over the world.
4. One Excellent Presentation will be selected from each oral session. The Certificate for Best Papers will be awarded at the end of each session on December 8-9, 2017.

❖ Call for Papers

Topics of interest for submission include, but are not limited to:

Research and Applications in Bioinformatics
Translational Bioinformatics
Biomedical Signal and Image Analysis
Genome-Phenome Analysis
Biomedical Text Mining and Ontologies
Computational Modeling and Data Integration
Health Data Acquisition, Analysis and Mining
Healthcare Information Systems
Clinical Decision Support and Informatics
Functional Genomics, Proteomics
